

Retriever Disk

www.life-safer.com

The Personal Retriever®;

...is the only U.S. Coast Guard approved, buoyant, rapid response, multi-use, water and ice rescue disk, with 100-foot reach. The Personal Retriever out performs all throw able water-rescue devices.

The Life Safer Personal Retriever®; is a United States Coast Guard (USCG) approved, state-of-the-art, throw able Personal Flotation Device (PFD) developed to enable first responders ashore or afloat the ability to quickly retrieve people from the water or from frozen rivers, lakes and streams.

The Retriever provides the optimum balance of buoyancy and size in an aerodynamic/hydrodynamic shape. The 100 feet of integrated floating line allows for a quick recovery. The attachment point of the line makes the Retriever skim on top of the water allowing it to station keep in swift water or be quickly retrieved with a minimum of effort. Extra line can easily be attached to the Retriever allowing it to be used from high profile vessels or bridges.

The Retriever's aerodynamic shape makes it very accurate and easy to use. Initial training time is usually less than an hour and recurrent training is only needed a few times a year to maintain optimum proficiency. Specifications

PERSONAL RETRIEVER®; specifications:

- Reach: 100 feet
- Buoyancy: 11.24 pounds*
- Deployment time: 10 seconds or less
- Re-deployment time: 45 seconds or less
- Material: Soft Expanded Polyethylene Foam Top and Propylene Base
- Diameter: 17 inches
- Weight: 1.5 pounds
- Training Time: One hour or less
- Rope: 650 pound test buoyant 3/16 inch polypropylene
- Design: Aero-dynamic and hydro-dynamic rotating wing
- Wind penetration: Full extension into 15-knot winds
- Coating: Petroleum resistant plasti-coat

* The US & UK accept 50 Newton / 11 pounds of buoyancy now required in the Type 50 Buoyancy Aids as sufficient to keep a conscious person afloat.

The Personal Retriever Average®; is made of flexible EPE (expanded poly-ethylene) foam, a balance of durability and softness to avoid injury.

Average Cost £140.00
